

# CONTEMPORARY SURGERY

VOL. 52, NO. 6/JUNE 2006

June 2006

## Treating Barrett's

BÂRRAX Medical offers the HALO90 System as a safe and convenient solution for the complete removal of Barrett's esophagus. HALO90 can be used independently or in conjunction with the HALO360 System, a balloon-based endoscopic ablation system for treating larger areas of disease. HALO90 features a small electrode mounted on the end of an endoscope. Contact BÂRRAX Medical: [www.barrax.com](http://www.barrax.com); or circle 203 on the Response Card.
